

The Laika Club of Gt. Britain was founded in 1989 when the first Laika vehicles were officially imported into the U.K. It continued in existence, due to the enthusiasm of the early members, through the period in the mid 1990's when there was no distributor in this country. Since the late 1990's, when official imports started once again, the club has gone from strength to strength and membership now stands at about 60 units.

It is the aim of the club to offer a forum where owners of Laika motorhomes can meet, exchange views and information and engage in social activities. To these ends we publish a newsletter (3 or 4 times a year) and organise rallies (about 10 a year) both in the U.K. and abroad. Overseas rallies in recent years have been mainly to various parts of France but Germany, Netherlands, Croatia and Italy have been included.

The club is independent of the manufacturers and any distributor although we try to maintain contacts and good relations with these companies. As a result of this independence the Club's constitution is a matter entirely of our own concern and one of its features is, that although it is necessary to own a Laika in order to become a member, it is not necessary to leave if the vehicle is changed. It is felt that friendships established should be encouraged and not put in jeopardy by forced resignations.
